BIRTHDAYS...AN ISSUE FOR SOME MEMBERS.

It has been brought to my attention that some people HATE being called out on the floor for the birthday dance and may even stay home that day to avoid it. Yet I know that others love it. So, please let me know if you don't want your birthday published in the newsletter and/or if you don't want to come out on the floor. I'll be happy to respect your wishes. SN

DANCING WITH THE PROS

This feature of our program is very popular and involves Pros lining up on the floor so that dancers can come out and dance with as many Pros as possible over the course of two or three songs. Dancers will donate whatever they feel they can to a worthy cause. This year we are proud to donate all the money collected to Wigs for Kids. Here is an introduction to this big-hearted organization. <http://www.wigsforkids.org/>

When children lose their hair, whether as a result of medical treatments, health conditions, or burn accidents, they don't just suffer physically. The change in their appearance can drastically undermine their self-image and sabotage their self-esteem.

"Children shouldn't have to worry about how they look, especially when they're in the middle of a health crisis," says Jeffrey Paul, founder of Wigs for Kids. "We want to give these kids the opportunity to feel good about themselves again."

Designing wigs for children is complicated because kids are smaller and more active than adults. So, he worked with doctors and prosthetics specialists to devise a hairpiece that would withstand typical kid activities, such as swimming, gymnastics, and sleepovers. They came up with a wig that adhered to the scalp under the most aggressive conditions. And if it got wet, it would look like everybody else's hair, because every strand of hair was hand-tied.

"They won't come off on the baseball field or in the playground," he adds. "Kids can count on them. And because kids look just the way they did before, they feel better about themselves. They look in the mirror and their eyes light up. To see that light in their eyes — that's priceless."

The cost of one custom hair system is \$1,800- \$3,000.

Why? Because it takes approximately 12 -25 ponytails to create a hair system. Each handcrafted wig is made of about 150,000 strands of natural hair. The individual strands of hair are hand-tied onto the foundation of the wig, which is created from a mold of the child's head for a snug fit.

"We make sure they look just like a child's own hair."

Wigs for Kids is non-profit organization that **exists solely from donations.**

You may donate money, time or hair pieces.

One of many letters from grateful parents:

"Dear Jeffrey Paul:

About 15 years ago you helped a six-year old boy who was going through radiation and chemotherapy because of leukemia. Mike got leukemia when he was four and did fine until the age of six when he went out of remission. He underwent a big series of radiation treatments. He lost his hair, was extremely ill, and doctors told us if he lived he may not ever have children.

We, as his parents, weren't concerned about him having children at that time since all we were concerned about was saving this beautiful boy's life. **After he lost his hair, he was withdrawn and shy and not like himself at all.**

We brought our most recent picture of Mike to the salon, and you made him a wonderful wig and styled it just like if it was his own hair. **At the moment you put that wig on him, you gave our little guy his personality back. Then you never even charged us a penny.** I knew right then and there that you were giving him a "gift from the heart".

Now I want to update you on the latest. Our son has been cancer free since his last bout when he was six. I don't take anything for granted so I thank the good Lord every day. He has gotten married to a wonderful gal and they have the most beautiful little girl. What a miracle considering all the invasive treatments that he had done to his body. So when you get a scared mom and dad that comes into your salon and you are styling a wig that you donated to this terrified family, please tell them of a story of another mom and day who was scared out of their wits of losing a child they most dearly loved by a horrible, unthinkable disease that attacks innocent children.

Thank you for being a part of our journey. (One of the good parts). My family will never forget you and all the kind blessings you gave us. Most Sincerely, Mary"
